

## An Afro-Indigenous Descendant's Genealogy Resource List

### RRBB, LLC

Below is a selection of recommended websites, articles, and books for those interested in exploring the complex histories of slavery in the North, Indigeneity, the contrasting roles of New Amsterdam/New Netherland under Dutch and British rule, paper genocide, and resistance. **This list is intended as a starting point.** I strongly encourage you to dive deeper—into archives, libraries, historical societies, and newspapers—to question established narratives, uncover what has been omitted, and help restore the stories of those erased from the historical record. Only by examining history from all perspectives can we truly understand how this nation came into being.
